

## BEST PRACTICES OF THE INSTITUTION

Incharge posted  
to upload on  
college portal.  
Man

### 1. VERMICOMPOSTING PIT

A vermicompost pit was developed in the college campus to convert biodegradable waste into compost which was used as manure for the plants grown in the campus as a "Clean and Green campus" initiative. It was done with the help of volunteers of "Paritantra" student club and by the initiation of Municipal Council, Bahadurgarh.

### 2. PARENT- TEACHER MEETING

As an initiative to develop an interactive and progressive outlook between the teacher, students and parents, a Parent- Teacher meeting was organised regularly in the college campus. The meeting was a positive approach towards developing a better communication between parents and the teachers where various problems encountered by the students and parents were discussed for holistic growth of the students. Parents feedback was also taken into consideration for better management of the institution and for better teaching and learning process.

### 3. ENERGY CONSERVATION

The college designed to optimally utilize the natural light and it has been ensured that there is maximum possible use of natural light

- Principal's office, administrative block, library and laboratories are designed to maximise the use of natural light.
- Classrooms have transparent glass windows so that electric light do not need to be switched on all the time.
- "SAVE ELECTRICITY" campaigns are conducted throughout the academic year. Student volunteers of "Paritantra" have put up posters near the switchboard of classroom urging users to switch off lights and fans on their way out and to not to break the switch boards.
- In classrooms and laboratories, light and fans are switched on whenever and wherever necessary.
- College campus is 100% LED usable campus.

### 4. BIODIVERSITY MAPPING OF COLLEGE CAMPUS

For better management and upkeep of the college campus, biodiversity mapping of college campus involving Zoology, Botany and Geography departments students was done where the information regarding various plant and animal species found in the campus was collected and identified.

### 5. PLASTIC FREE CAMPUS

Towards "Clean and Green Campus" initiative, the college has taken various activities on the issue of plastic free campus including various student awareness programmes for minimum use of plastic, cleanliness drives and waste disposal.
